GRAVES OF ALL HEROES DECORATED

Memorial Day Observed On Big Scale In France Today—W.1soon Speaks At Suresnes

Paris, May 30—No grave of an American who fell in the great war was overlooked in today in observance of Memorial Day in France. Some of the services were held in the cemeteries in the vicinity of the battle line along which the troops fought and sacrificed their lives. Others took place near hospital centers further back where those whose wounds caused death have been buried.

The two most notable events took place at Suresnes, near Paris, and at Romagne, near the Argonne. President Wilson left the labors of the peace conference to the former place for an address in the American cemetery there, Morgan, Reynold's Station; eGo. while General Pershing went to Romagne to speak near the spot where the Americans suffered the

greatest in the fighting.

In his address, President Wilson declared the day of secret councils is past because the people are in the saddle. Private councils of statesmen, he added. will not longer determine the destinies of nations. An earnest defense of the League of Nations was also a prominent note in the President's address. He said he leaked for the time when the man looked for the time when the man who failed to support the League of Nations would be as ashamed as the man who opposed the un-ion of states after the Civil War.
